

Lab 6 : Generation of Contour Line

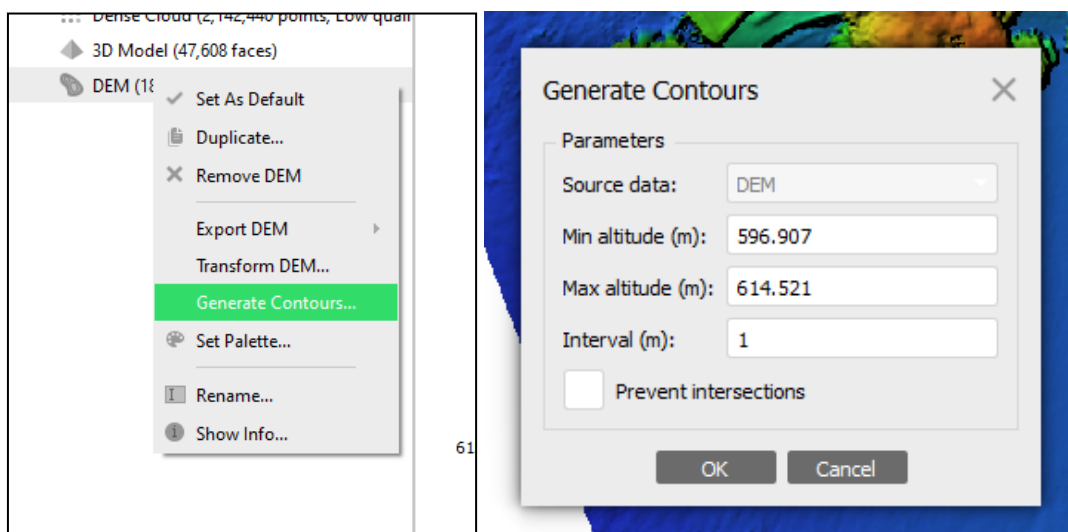

Student Name ; Sushant Bhikaji Gurav

A **contour line** is a line drawn on a topographic map to indicate ground elevation or depression. A contour interval is the vertical distance or difference in elevation between contour lines. Index contours are bold or thicker lines that appear at every fifth contour line.

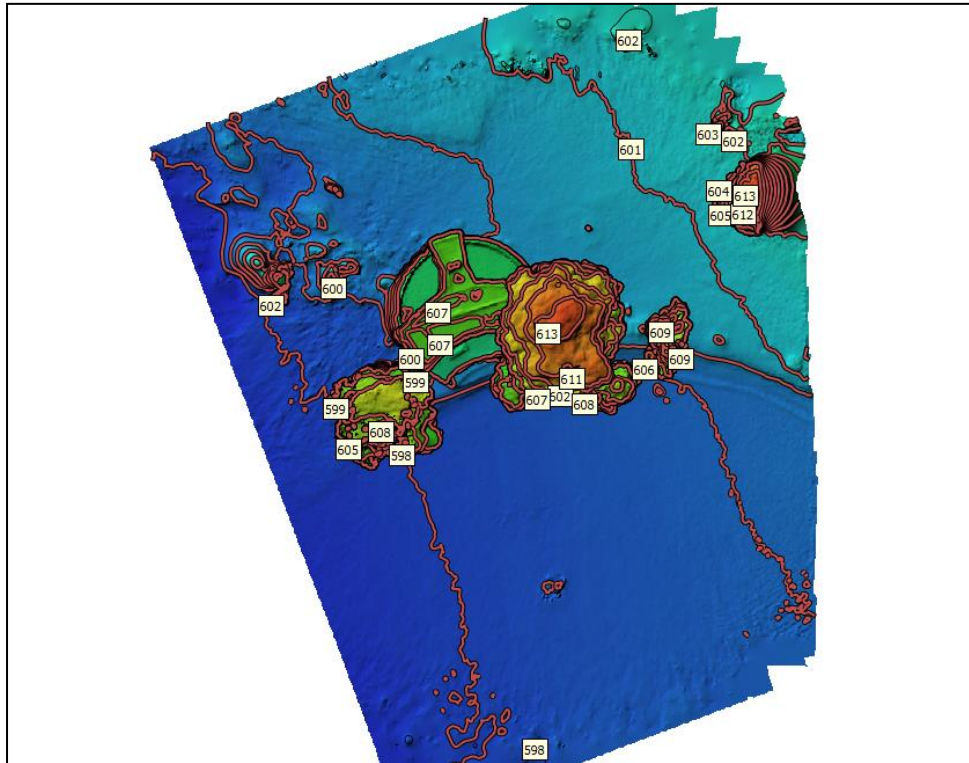

1) Add data or images and create DEM

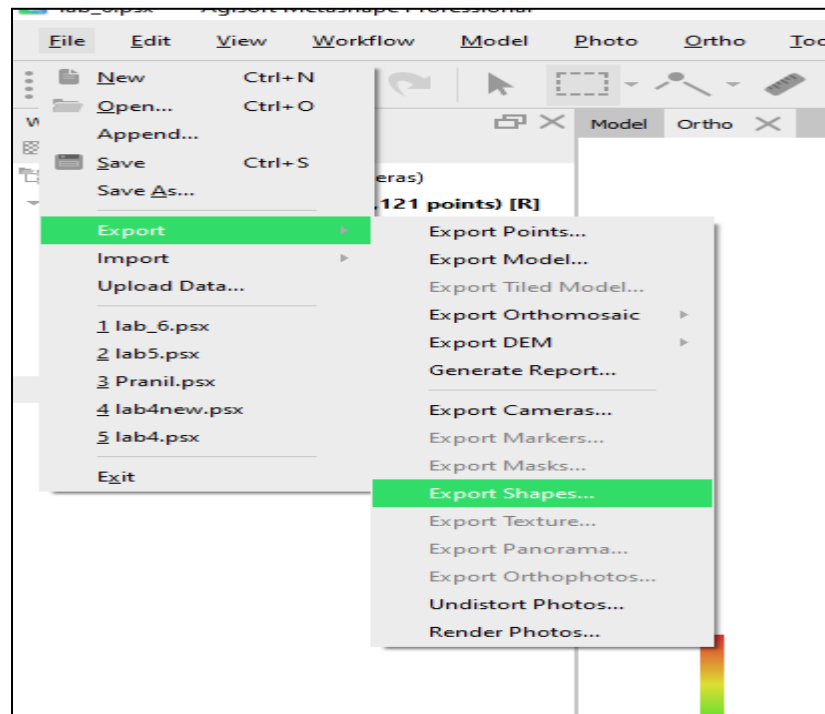

2) Then right click on DEM → Generate Contours

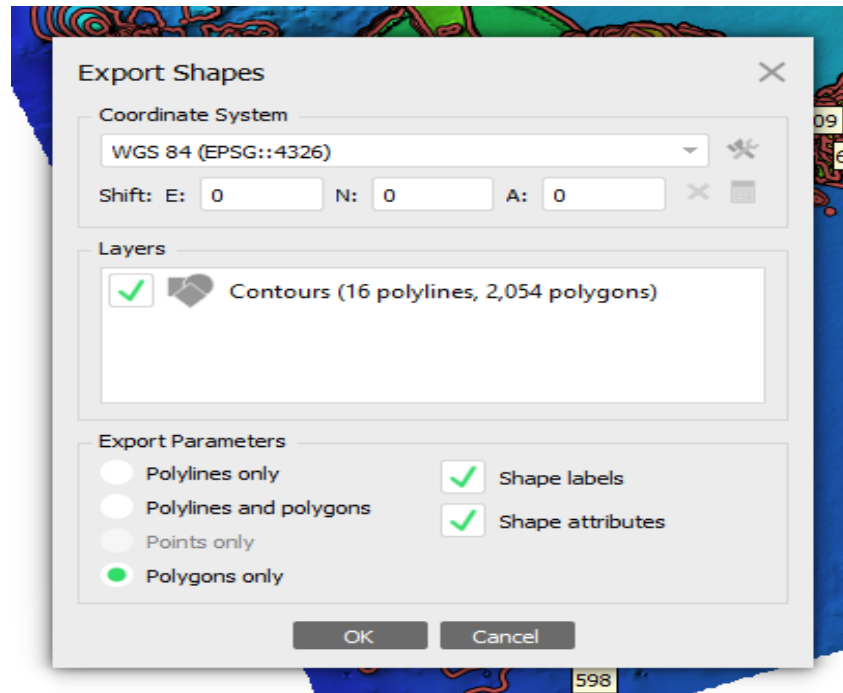

3) Using **Rectangle selection** select contour

4) Then go to file and export map

5) This save file open in Arc Map
